

Learning with Technology – What the Research says
Sponsored by BESA (British Educational Suppliers Association) and the
Technology Enhanced Learning (TEL) Research Programme
30 March, 2012
13.00 – 15.00 pm
The London Knowledge Lab, 23-29 Emerald Street
London WC1N 3QS

This series of events is supported by the Association for Learning
Technology (ALT) and the Technology Enhanced Learning (TEL)
Research Programme

Please book your place by contacting g.nicola@ioe.ac.uk
There is no charge for this event and refreshments will be provided

Attendees will be able to hear talks from industry, academics, policy
makers and practitioners, see research prototypes, learn about current
research projects and findings and meet other like-minded people. They
will also be able to shape the structure and content of future events in this
series. A full program will be available on the London Knowledge Lab
website at <http://www.lkl.ac.uk/cms/index.php>

Advance notice of our second event on 27 April

What the research can tell us about how to teach computer science and
computational thinking in the classroom?

If you have a research prototype or technology project that you would like
to demo at this or a future event, please contact r.luckin@ioe.ac.uk
